Good morning, children! Today our lesson is devoted to St. Valentine's Day. We are going to learn some facts about the history of the holiday, have different contents and choose the best pair.

«St. Valentine's Day»

I. The history of the holiday.

Вед:

Today we celebrate one of the best holidays, which young and old people love. It is St. Valentine's Day.

St. Valentine's Day is a religious holiday, which is celebrated in Great Britain, in many European countries and in the USA. St. Valentine's Day has roots in several legends. One of the early symbols of love is Cupid, the Roman God of Love, who is represented by the image of a young boy with bow and arrow. Valentine was a Christian priest in Roman Empire three hundred years after the death of Jesus Christ. He had been thrown in prison for his teaching. On February 14, Valentine was beheaded, not only because he performed a miracle – he cured the jailer's daughter from her blindness the night before he was executed – but he wrote a letter to the girl, signing «From your Valentine».

День Святого Валентина это религиозный праздник, который отмечают в Великобритании, в большинстве европейских стран и в США. День Святого Валентина имеет в своей истории несколько легенд. Одним из первых символов любви был Купидон, Римский бог любви, который представлял из себя мальчика с луком и стрелами. Валентин был христианский священник в Римской империи. Он был посажен в тюрьму за его учение. Там он влюбился в дочь тюремщика и вылечил её от слепоты за ночь до его казни. Уходя на казнь, он оставил ей прощальное любовное послание, подписанное « Твой Валентин ».

II Выбор пар участников.

Вед: Let's play a little. We need three boys and 3 girls from two different forms. Let's choose 6 children

(создаются пары)

Вед: Now let's introduce yourselves. You must ask some questions each other.

II. Конкурсы.

Вед: And now you know each other and we can know what pair will be the best. You will take part in our St. Valentine's competitions. You will be given hearts for every right answer. The winner is a pair that has the most number of hearts.

And so are you.

Let me call you sweetheart

I'm in love with you.

Let me hear your whisper

That you love me, too.

Love each other.

Help each other.

Don't argue with each other.

- Whose is the best?

4) The next game is "The best Valentine card". I give you some paper, scissors and glue, pencils. You should make a Valentine card.

Cinema has got an important role in the life of any society. The cinema has become the part of the modern way of life. There is no denying the fact that the cinema is an excellent vehicle of culture. Its possibilities are unlimited. In the earliest years of the cinema its power to show the contemporary events was recognized and appreciated. More than anything else this unique quality secured popularity for the film as a new form of instruction and entertainment. That's why the cinema is considered to be one of the best ways of spending one's leisure time.

There are a lot of different kinds of films, theatrical films, horror films, thriller films, popular science films, mystery films, documentaries, animated cartoons. Besides the films may be color or black and white, full-length or short, sound or silent, dubbed in mother tongue, three-dimension or wide screen.

We can see films either in the cinema or on TV. As I am often short of time, I have practically no time for going to the cinema. For this reason I watch films on TV more frequently. But sometimes I manage to go to the cinema. I prefer feature films and amusing comedies. I want to relax a little bit, sometimes to have a good laugh. But at the same time I am fond of true-to-life films describing the life of ordinary people, their feelings and problems. Such films move me deeply, they arose the feelings or sympathy or hatred for the heroes. As a rule such films have a deep and lasting impression upon me.

A modern cinema programme contains advertisements, which are usually shown before the film and are often worth seeing.

In Great Britain and USA the cinemas/movies/ sell more than one billion tickets a year.

Movies are shown on TV and can be rented or purchased as a videotape recording. Nowadays people are equipped with video recorders in their majority.

Modern cinema halls are comfortable. There are many rows with convenient seats in the hall. It's possible for everyone to see y\the screen vividly. The quality of the sound has changed a lot. At the present time we can meet the highest quality dolby digital surround. Most cinemas have a refreshment rooms where cinema goer can get a snack or a drink. American culture brought to Russia pop corn and we can't but eat it while watching the movie.
